Board of Directors Resolution

**NORTHWESTERN CORPORATION
BOARD OF DIRECTORS MEETING
AUGUST 7, 2002
RESOLUTION**

WHEREAS, NorthWestern Corporation (the "Corporation") believes it is advisable for rating agency purposes to move the assets of its wholly-owned subsidiary, NorthWestern Energy, L.L.C. (referred to herein as "NWE", formerly known as The Montana Power, L.L.C. ("MPLLC") into which The Montana Power Company was merged on February 13, 2002, with MPLLC being the surviving entity), to the Corporation to more directly support the obligations of the Corporation;

WHEREAS, the Corporation desires that NWE transfer substantially all of NWE's assets to it, except for those assets (and liabilities) associated with the Milltown hydroelectric dam on the Clark Fork River (the "Milltown Dam") (collectively, excluding the Milltown Dam assets and liabilities, the "NWE Assets and Liabilities");

WHEREAS, the Board of Directors desires to effect the transfer of the NWE Assets and Liabilities to it by NWE (the "NWE Asset Transfer") such that upon the consummation of the NWE Asset Transfer all assets and liabilities associated with the Milltown Dam remain with NWE and from and after the consummation of the NWE Asset Transfer, to operate the business comprising the NWE Assets and Liabilities as a division of the Corporation to be known as the "NorthWestern Energy Division".

NOW, THEREFORE, BE IT RESOLVED that the Board of Directors hereby authorizes, empowers and directs the officers of the Corporation, or any of them, to execute and deliver an asset and stock transfer agreement to be entered into between the Corporation and NWE (the "Transfer Agreement") to effect the NWE Asset Transfer, as well as any agreements, instruments, or documents contemplated thereby or in connection therewith ("Ancillary Agreements"), as the proper officers of the Corporation may deem necessary or desirable, with such modifications or amendments thereto as such officers shall approve and the execution of such Transfer Agreement and Ancillary Agreements shall be deemed conclusive evidence of such approval;

FURTHER RESOLVED, that the Board of Directors hereby authorizes, empowers and directs the proper officers of the Corporation, or any of them, to execute and deliver a power purchase agreement with NWE for the purchase of power from the Milltown Dam at a price equal to the price authorized in NWE's Tier II proceeding (the "PPA") and a support agreement to be entered into between the Corporation and NWE pursuant to which the Corporation will ensure that NWE will have necessary funds to pay (i) the maintenance and operating costs of the

Milltown Dam not paid pursuant to the PPA and (ii) subject to a cap on the maximum amount payable by this Corporation, as determined by the officers executing the support agreement after consultation with the Corporation's environmental consultants and counsel, NWE's allocable share of environmental liabilities relating to the Milltown Dam and certain former manufactured gas plant sites as finally determined by appropriate regulatory proceeding not subject to further appeal, on mutually agreeable terms, with such modifications or amendments thereto as such officers shall approve and the execution of such PPA and support agreement shall be deemed conclusive evidence of such approval;

FURTHER RESOLVED, that the officers of the Corporation be, and each of them hereby is, authorized, empowered and instructed on behalf of the Corporation to take all other actions to effect the NWE Asset Transfer, such as, among other things, obtaining any necessary or desirable consents, or providing necessary or desirable notices, certificates, ratings confirmation letters or taking other actions, including, without limitation, under, or in connection with, the Credit Agreement among the Corporation, Credit Suisse First Boston ("CSFB"), CIBC Inc. ABN AMRO Bank, N.V., and Barclays Capital, as co-arrangers, and CSFB, as administrative agent, lead arranger and sole book runner, dated as of January 14, 2002, and as such officer shall deem necessary or desirable;

FURTHER RESOLVED, that the officers of the Corporation be, and each of them hereby is, authorized, empowered and instructed on behalf of the Corporation and in its name to prepare, execute and file with the Securities and Exchange Commission any and all documents, reports, statements, filings, requests and information supplements as may be necessary or desirable for the purpose of completing the transactions contemplated by, or in connection with, the NWE Asset Transfer;

FURTHER RESOLVED, that the officers of the Corporation be, and each of them hereby is, authorized, empowered and instructed on behalf of the Corporation to take all action, and act in the name of, or represent, the Corporation where necessary or desirable to comply with any and all applicable federal, state and local laws, rules and regulations applicable to the Corporation or the NWE Asset Transfer, including, without limitation, in connection with the Federal Energy Regulatory Commission and state and other federal regulatory agencies;

FURTHER RESOLVED, that the officers of the Corporation be, and each of them is, authorized, empowered and instructed, for and on behalf of the Corporation, to retain such consultants, advisors, attorneys, independent contractors, investor and public relations firms as they deem necessary or desirable and on such terms and conditions as they deem appropriate to effect the NWE Asset Transfer and further the purposes and intent of these resolutions;

FURTHER RESOLVED, that the officers of the Corporation be, and each of them hereby is, authorized, empowered and instructed, for and on behalf of the Corporation, to take all such further actions and to negotiate, execute and deliver any and all documents, filings, reports, statements, instruments and certificates, and to do or cause to be done any and all acts as such officers may deem necessary or appropriate in order to carry out the purposes and intentions of these resolutions, including, but not limited to, the transactions in anticipation of, contemplated by, or in connection with the NWE Asset Transfer;

FURTHER RESOLVED, that Eric R. Jacobsen and Michael J. Hanson, or either of them, shall have a proxy to adopt the necessary or appropriate resolutions of the Corporation as manager of NWE to approve as manager of NWE the NWE Asset Transfer and related actions; and

NOTE: The pro forma interest coverage ratio at June 30, 2002, is below 2.0 as this calculation does not yet reflect NorthWestern's planned equity offerings of approximately \$200 million and receipt of \$97 million in proceeds from the sale of Colstrip transmission properties. These items are part of NorthWestern's plan to reduce its current debt levels, increase common equity and reduce interest expense resulting from the acquisition of the Montana operations. Approximately \$88 million of the equity offerings are now completed and the company continues to work on finalizing the remaining items in the plan it has set forth.

APPLICATION FOR AUTHORIZATION
OF THE ASSUMPTION OF LIABILITIES
AND AUTHORIZATION FOR EXEMPTION FROM
COMPETITIVE BIDDING AND NEGOTIATED OFFER REQUIREMENTS
AND EXPEDITED TREATMENT

NorthWestern Corporation ("NorthWestern"), pursuant to Section 204 of the Federal Power Act ("FPA") and Part 34 of the Federal Energy Regulatory Commission's ("Commission") regulations under the FPA,¹ requests an order from the Commission authorizing NorthWestern to assume those outstanding liabilities of NorthWestern Energy, L.L.C. ("NWE"), formerly known as The Montana Power Company ("Montana Power") detailed herein; and granting an exemption from the Commission's competitive bidding requirements of Section 34.2,² all as more fully described below. NorthWestern also requests this authorization on an expedited basis, by November 15, 2002, in order to facilitate an internal corporate restructuring which is the final phase of the acquisition of the utility business of NWE previously approved by the Commission.³

¹ 18 C.F.R. Part 34.

² 18 C.F.R. § 34.2.

³ The Montana Power Co., et al., 94 FERC ¶ 62,161 (2001).

II. SUMMARY AND REQUEST FOR EXEMPTION

NorthWestern requests authority to assume those outstanding liabilities of NWE described below. The Commission previously approved NorthWestern's purchase of the utility business of Montana Power.⁵ As part of corporate reorganization prior to the closing, the utility business of Montana Power was placed in a separate entity, Montana Power, LLC, and after closing was renamed NorthWestern Energy, LLC. NWE, at closing of the acquisition, had approximately \$430,000,000 of debt, which remains the debt of NWE. Currently, NorthWestern is undertaking an internal corporate restructuring to complete the final step in its acquisition of the utility business of Montana Power.⁶ The NWE debt that is being assumed by NorthWestern was previously approved by the Montana Public Service Commission ("MPSC").⁷

⁵ See The Montana Power Co., et al., 94 FERC ¶ 62,161 (2001).

⁶ This internal corporate restructuring was contemplated and discussed in the Joint Application of NorthWestern and Montana Power in Docket No. EC01-47.

⁷ In the Matter of the Application of the Montana Power Company for Authority to Incur up to \$210,000,000 Principal Amount of First Mortgage Bonds, Default Order No. 5585, 1991 Mont. PUC LEXIS 136 (Nov. 4, 1991); In the Matter of the Application of the Montana Power Company for Authority to Incur Not to Exceed \$150,000,000 Principal Amount of Long-Term Debt in the Form of Medium Term Notes, Default Order No. 5669, 1992 Mont. PUC LEXIS 146 (Nov. 30, 1992); In the Matter of the Application of the Montana Power Company for Authority to Borrow the Proceeds from the Sale of Not to Exceed \$90,205,000 Principal Amount of Pollution Control Revenue Refunding Bonds to be Sold by the City of Forsyth, Montana and, to Provide for the Payment Thereof, to Issue a like Principal Amount of the Applicant's First Mortgage Bonds, Default Order No. 5707, 1993 Mont. PUC LEXIS 54 (May 11, 1993); In the Matter of the Application of the Montana Power Company for Authority, Among Other Things, to Borrow the Proceeds From the Sale of Not to Exceed \$ 80,000,000 Principal Amount of Pollution Control Revenue Refunding Bonds to be Sold by the City of Forsyth, Montana and, to Provide for the Payment Thereof, to Issue Not to Exceed \$ 90,000,000 Principal Amount of the Applicant's First Mortgage Bonds, Default Order No. 5760, 1993 Mont. PUC LEXIS 84 (Nov. 8, 1993); In the Matter of the Application of The Montana Power Company for Authority to Incur Not to Exceed \$ 150,000,000 Principal Amount of Secured Long-Term Debt in the Form of First Mortgage Bonds, Default Order No. 6380,

(continued...)

NorthWestern requests that a single order be issued to authorize the relief requested by this Application, that the authorization be effective as of the date of the Commission's letter order. NorthWestern seeks exemption from the competitive bidding and negotiated offer requirements of the Commission's rules. In support of NorthWestern's request for exemption, NorthWestern affirmatively states that it has no affiliation or relationship with any financial institutions with regard to the liabilities and securities that are described in this Application. NorthWestern further states that it will take appropriate steps to ensure that the assumption of such securities will be accomplished so as to provide NorthWestern with the lowest cost of money and greatest net proceeds that can be provided for such securities in order to safeguard the interests of its shareholders and customers, but that assumption of the securities that are contemplated are not adaptable to the competitive bidding and negotiated offer requirements of the regulations. Also, the NWE debt that is being assumed by NorthWestern was previously approved by the MPSC.⁸ NorthWestern will take steps to ensure that it assumes obligations consistent with the public interest, and therefore, NorthWestern requests that it be granted an exemption from these regulation requirements.

III. INFORMATION REQUIRED UNDER SECTION 34.3 OF THE REGULATIONS

In support of this Application, NorthWestern submits the following information pursuant to Section 34.3 of the Regulations:

(e) Description of obligations assumed.

NorthWestern proposes to assume the outstanding liabilities of NWE as detailed below:

FIRST MORTGAGE BONDS

NWE has outstanding, as of the date hereof, \$355,402,000 of First Mortgage Bonds which were issued under the Mortgage and Deed of Trust dated October 1, 1945 (the "Mortgage"). The Mortgage imposes a first mortgage lien on all physical properties owned by NWE, exclusive of subsidiary company assets and certain property and assets specifically excluded by the Mortgage. The obligation collateralized under the Mortgage are the First Mortgage Bonds, including those First Mortgage Bonds designated as Secured Medium-Term Notes and Pollution Control Revenue Bonds.

Since 1945, NWE has issued altogether twenty two (22) series of First Mortgage Bonds, fifteen of which have already been retired. As of the date hereof the following seven (7) series of First Mortgage Bonds are outstanding:

¹¹ This Series matures within one year of the expected date of assumption of such liability by NorthWestern and would normally not be subject to the Commission's review pursuant to 18 C.F.R. § 34.1(c)(2); however, NorthWestern provides this information for the sake of completeness.

None of the outstanding series of First Mortgage Bonds described above is listed on a stock exchange.

JUNIOR SUBORDINATED DEBENTURES

NWE has outstanding, as of the date hereof, \$67,010,325 of 8.45% Junior Subordinated Debentures ("Debentures"). All of the Debentures are held by Montana Power Capital I, a Delaware statutory business trust subsidiary of NWE (the "Trust"). The Trust was originally established by NWE as a special purpose entity to issue common undivided beneficial interests in the assets of the trust ("Common Securities") to NWE and the \$65,000,000 aggregate liquidation amount 8.45% Cumulative Quarterly Preferred Securities (Series A) ("QUIPS") to the public.

The Debentures are unsecured, subordinated obligations of NWE which rank junior to all of NWE senior indebtedness, which senior indebtedness include all obligations (other than non-recourse obligations and the indebtedness represented by the Debentures) of, or guaranteed or assumed by, NWE for borrowed money or for the

¹³ See n.12.

payment of money relating to any lease which is capitalized on the consolidated balance sheet of NWE and its subsidiaries in accordance with generally accepted accounting principles as in effect from time to time.

The Debentures bear interest at an annual rate of 8.45% , such interest being payable quarterly in arrears on March 31, June 30, September 30 and December 31 of each year. The Trust's obligation to make distributions on the QUIPS substantially corresponds, in time and amount, to the interest and principal payments payable by NWE on its Debentures.

The Debentures were issued on November 6, 1996 and will mature on December 31, 2036.

The Debentures are not rated by any rating institution as they were issued only to the Trust and were intended to support the Trust's obligations under the QUIPS. The Debentures are not listed on any stock exchange.

In addition to its obligations under the Debentures, NWE is obligated to provide the Trust with certain back-up undertakings. Such undertakings include the guarantee (on a subordinated basis) by NWE of payments of distributions and other amounts due on the QUIPS, to the extent the Trust has no funds to pay such distributions or amounts. They also include an obligation by NWE to pay all of the expenses of the Trust. Considered together, the Debentures and the back-up undertakings described above, constitute in effect a full and unconditional guarantee by NWE of the Trust's obligation under the QUIPS.

The guarantee of the QUIPS by NWE (the "Guarantee") is pursuant to the Guarantee Agreement, dated as of November 1, 1996, as amended, between Montana Power and The Bank of New York, as trustee (the "Trustee"), as supplemented by the Side Letter, dated as of February 13, 2002, from NWE to the Trustee, and as amended by the Amendment to Guarantee Agreement, dated as of August 13, 2002, among NWE,

NorthWestern and the Trustee (as amended and supplemented, the "Guarantee Agreement"), for the benefit of the holders from time to time of the QUIPS. There are currently approximately 90 holders of the QUIPS. The QUIPS, together with the Guarantee, are listed on the New York Stock Exchange under the ticker symbol "MTPPrA." NorthWestern will also assume the Guarantee.

Pursuant to the Guarantee, NWE irrevocably and unconditionally agreed, to the extent set forth in the Guarantee Agreement, to pay the Guarantee Payments (as defined below) in full to the holders of the QUIPS (except to the extent paid by or on behalf of the Trust), as and when due, regardless of any defense, right of set-off or counterclaim that the Trust may have or assert. The following payments with respect to the QUIPS, to the extent not paid by or on behalf of the Trust, are subject to the Guarantee (without duplication) (the "Guarantee Payments"): (i) any accrued and unpaid distributions required to be paid on the Preferred Securities, but only if and to the extent that the Trustee has available funds sufficient to make such payment, (ii) the redemption price with respect to any QUIPS called for redemption by the Trust, but only if and to the extent that the Trustee has available funds sufficient to make such payment, and (iii) upon a voluntary or involuntary dissolution, winding-up or termination of the Trust (unless the Debentures are distributed to the holders), the lesser of (a) the aggregate of the liquidation preference and all accrued and unpaid distributions on the QUIPS to the date of payment and (b) the amount of assets of the Trust remaining available for distribution to holders of the QUIPS. NWE's obligation to make a Guarantee Payment may be satisfied by direct payment of the required amounts by NWE to the holders of the QUIPS or by causing the Trust to pay such amounts to such holders. The Guarantee constitutes a guarantee of payment and not of collection (i.e., the guaranteed party may institute a legal proceeding directly against NWE to enforce its rights under the Guarantee without first instituting a legal proceeding against any other person or entity).

UNSECURED MEDIUM-TERM NOTES

NWE has outstanding, as of the date hereof \$40,000,000 of Unsecured Medium-Term Notes (the "MTNs"), representing unsecured obligations of NWE.

Since 1989, NWE has issued four (4) series of MTNs out of which one series was already retired by NWE in 2001. As of the date hereof the following series of MTNs are outstanding:

Interest Rate	Date of Issuance	Maturity Date	Moody's Rating as of 10/8/02	Outstanding Principal Amount

TRANSITION BONDS¹⁴

Montana Code Annotated (MCA), Sections 69-3-1401, et seq., and Sections 69-8-103 and 69-8-503 permit, Montana natural gas utilities, including NWE to finance the recovery or their respective "Transition Costs" through the issuance of transition bonds. In Financing Order No. 6035a of the Montana Public Service Commission ("MPSC"), dated April, 27, 1998, with a service date of May 1, 1998, the MPSC has approved the

¹⁴ The Transition Bonds were issued by NGFT and are without recourse to NWE's general credit, because NGFT is a wholly-owned subsidiary of NWE. Therefore, such bonds are not considered as a liability of NWE which is to be assumed by NorthWestern pursuant to this Application. Thus, NorthWestern does not believe that such Transition Bonds would be subject to the Commission's jurisdiction; however, NorthWestern discusses them in this Application for informational purposes, the fact that such bonds are included on NWE's combined balance sheet, and out of an abundance of caution.

issuance of up to \$65,000,000 of transition bonds ("Transition Bonds"), intended to recover Transition Costs related to NWE's natural gas operation.

On December 22, 1998, NWE issued, through the Montana Power Natural Gas Funding Trust, a wholly-owned Delaware statutory business trust of NWE ("NGFT") originally established by NWE for purpose of issuing the Transition Bonds, \$62,700,000 of 6.20% Transition Bonds. Prior to such issuance, NWE had sold to NGFT its right to recover the Transition Costs (such right a "Transition Property") and, in order to insure the collection of the Transition Costs by NGFT, undertook to act as a servicer in the collection of such costs.

The Transition Bonds bear interest at an annual rate of 6.20%, such interest being payable semi-annually in arrears on March 15 and September 15 of each year. The Transition Bonds mature on March 15, 2013.

As of October 8, 2002, the Transition Bonds were rated Aaa by Moody's. The Transition Bonds are not listed on any stock exchange.

(f) Purpose of Issue. The purposes for which the securities covered by this Application are to be assumed are as follows:

NorthWestern, as permitted by law and pursuant to the corporate purposes stated in its Certificate of Incorporation, and with the approval and authorization of its Board of Directors, seeks to assume the outstanding liabilities of NWE, as described above, in connection with its acquisition of the utility business of NWE/Montana Power. This assumption is the final step in NorthWestern's acquisition of the utility business of NWE/Montana Power. The liabilities being assumed were incurred by NWE/Montana Power in connection with the operation of its utility business and approved by the MPSC.

NorthWestern's assumption for which authorization is sought herein is for a lawful object, within NorthWestern's corporate purposes and compatible with the public interest, and its assumption of these obligations as requested herein is consistent with the

proper performance by NorthWestern of service as a public utility and will not impair NorthWestern's ability to perform that service, and is reasonably necessary or appropriate for such purposes.

(g) Other Regulatory Approvals. No application (other than this Application), registration statement or similar document with respect to the assumption of liabilities covered by this Application is required to be filed by NorthWestern with any Federal or state regulatory body other than filing of one or more Registration Statements with the Securities and Exchange Commission. If, by nature of a future transaction, any additional regulatory approvals are necessary, NorthWestern will take steps to receive such approvals.

(h) Propriety of Issue. NorthWestern believes that the facts set forth herein show (i) that the assumption of liabilities covered by this Application will be for a lawful object within NorthWestern's corporate purposes, (ii) that said object is necessary or appropriate for, or consistent with, the proper performance by NorthWestern of service as a public utility and will not impair its ability to perform that service and will not impair its ability to perform that service, and (iii) that such issuance is reasonably necessary or appropriate for such purposes.

(i) Limitations on Interest and Dividend Coverage. None.

(j) Rate Changes.

During the twelve-month period ended June 30, 2002, as presented in the financial statements incorporated as Exhibit E in this Application, NorthWestern has not increased retail electric or natural gas rates through general corporate cost of service rate procedures in the State of South Dakota, and it increased retail natural gas rates through a rate of return realignment proceeding in the State of Nebraska, effective August 1, 2001, in the total sum of \$401,378 on an annual basis. NorthWestern's retail electric and natural gas tariffs provide for rate adjustments to reflect changes in fuel and purchased power costs

affecting electric rates and Commission approved changes in wholesale purchased gas costs affecting natural gas rates, with such adjustments made on a quarterly basis for electric tariffs and monthly for natural gas tariffs.

NorthWestern notes that NWE has its own rates on file with the MPSC. Certain retail rate increases were granted to Montana Power prior to the closing by NorthWestern of its acquisition of the utility business of Montana Power. NWE succeeded to those retail rate increases.¹⁵
